Re: Cancellation of Small Mining Permit, Marriott Project, S/057/005, Weber County, Utah

Dear Mr. Marriott:

On March 17, 1999, Mark Archer submitted and signed (on your behalf) a notice of intention to commence small mining operations for the Marriott Project located in Weber County, Utah. Mr. Archer paid the \$100.00 permit fee at that time. On March 22, 1999 the Division sent you an acceptance letter stating the notice met the requirements of the Utah Mined Land Reclamation Act. You were also advised that you would need a Special Use Permit from the county prior to commencing any activity at the site.

On March 31, 1999 we received notification from the bank that Mr. Archer's check had a "stop payment" issued on it and the check was returned to us. In a subsequent phone call to Mr. Archer, he told Lynn Kunzler, of my staff, that he would come in and replace the check. He indicated he had mistakenly used a recovered check that had previously been reported to his bank as lost.

To date, we have not received the permitting fee. Consequently, we must **rescind our previous acceptance** of your small mining permit application. You are hereby notified that until this matter is resolved, **you have no state authorization to create any mining related disturbance or remove any mined material from this site.** We must receive full payment before we can reactivate your small mining notice. Once full payment is received, we will notify you accordingly of our approval to proceed with continued operations at this site.

If you do not *contact us*, or submit the required \$100 permit application fee *within 14 days* of your receipt of this letter, we will be *forced to retire the mine file for this project*. A new permit application would then need to be filed, fees paid, and written authorization(s) issued before we could allow mining operations to begin.

Please note that if you decide not to complete the permitting requirements for this project, then any new mining related disturbances must be reclaimed in a timely manner. A timeframe for reclamation of these disturbances must be negotiated with our agency.

We look forward to working with you to bring about a timely resolution to this outstanding permitting requirement in the near future. Please contact me at (801) 538-5286, Lynn Kunzler (538-5310), or Joelle Burns (538-5291), if you have questions or wish to discuss this matter further.

Sincerely,

D. Wayne Hedberg
